DETAILED ACTION

Elections of Species

This application contains claims directed to the following mutually exclusive, patentably distinct species:

<i>Thermoplastic Polymer "A" Species</i>	<i>Thermoplastic Polymer</i>
1	Polyolefins
2	Polyamides

<i>Substance "B" Species</i>	<i>Substance "B"</i>
1	Silicates
2	Carbonates
3	Oxides
4	Kieselguhr or DE
5	Crosslinked Polyvinylactams

<i>Silicate Sub-Species</i>	<i>Silicate</i>
1	Silica Gel
2	Bentonite

<i>Carbonate Sub-Species</i>	<i>Carbonate</i>
1	Alkali metal carbonate
2	Alkaline earth metal carbonates
3	Alkali metal hydrogencarbonates
4	Alkaline earth metal hydrogencarbonates
5	NaHCO ₃
6	KHCO ₃
7	CaCO ₃

<i>Oxide Sub-Species</i>	<i>Oxide</i>
1	Oxides/mixed oxides of subgroup 4
2	Oxides/mixed oxides of main group 4
3	TiO ₂

<i>Crosslinked Polyvinylactam</i>	<i>Crosslinked Polyvinylactam</i>
--	--

<i>Sub-Species</i>	
1	PVPP

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from the ***Thermoplastic Polymer "A" Species*** and from ***Substance "B" Species*** for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. If an elected species has a "Sub-Species," an election of a sub-species is also required. Currently, none of the claims appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication should be directed to /Robert James Popovics/ at telephone number (571) 272-1164.
